How To Care For Your Glasses

- It is best to use a cleaning solution made just for eyewear but a mild soap and warm water can also be used to wash your glasses. Always dry them with a clean, soft cloth.
- Avoid using tissues or paper towels to clean or dry your glasses. They are made of wood pulp and the fibers may scratch your lenses.
- Never use window cleaner on your glasses. It will strip away the coatings on your lenses.
- Store your glasses in a case to prevent accidental breaks and scratches.
- To keep your glasses properly aligned, use two hands when putting on or removing your glasses.
- Visit your optician for any needed repairs or adjustments.

Why the Vision Care Agreement?

Your new eyeglasses are an investment in both your vision and your appearance. Protect that investment with our Vision Care Agreement.

Accidents happen, glasses get broken. With the Vision Care Agreement you will enjoy free adjustments and minor repairs, as well as the peace of mind that if something happens to your glasses we will repair or replace them at a fraction of the original cost.
